V. Analysis of Potential Actions 29

A. Stormwater Management Alternatives 29
   1. Regional Planning and Development 29
      a. Location 29
      b. Capacity 29
      c. Costs 30
d. Funding Strategy 30
   2. Onsite Stormwater Management for New Development 30
   3. Stormwater Management Facility Maintenance 30
      a. Stormwater Wetlands 31
      b. Storm Sewers 32
c. Open Channels 32
d. Water Quality Inlets 33
   4. Installation or Modification of Stormwater Facilities in Areas of Existing
      Development 33
   5. Elimination of Inflow 33
   6. Elimination of Infiltration 33
B. Other Recommendations 34
   1. Educational Opportunities 34
      a. Educational Methods 34
      b. Sources of Information and Phone Numbers 35
   2. Monitoring 40
      a. Water Quality and Quantity 40
      b. Health and Acreage of Existing Natural Wetlands and Constructed
         Wetlands in Mitigation Banking 40
c. Adherence to Erosion and Sediment Control Plans at Construction Sites 41
d. Land Use Types and Amount of Impervious Surface 41
e. Citizen Complaints; Public Opinion 41
f. Failing Onsite Sewage Disposal (Septic) Systems 41
   3. Regulatory Changes 42
      a. Preservation of Natural Vegetation in Stream Corridors 42
      b. Preservation of Natural Wetlands 42
c. Preparation of Stormwater Pollution Prevention Plans for Construction
   Projects as Part of the Town Development Review Process 43
d. Water Quality Fee in Place of Onsite Stormwater Management 44
e. Minimization of Impervious Surfaces 44
f. Town Ordinance Prohibiting Sump Pump Discharge into Sanitary Sewers 44
g. Town of Chili Fill and Excavation Permits 45
   4. Other Potential Actions 46
      a. Annual Reports on Watershed Monitoring 46
      b. Involvement of Representatives of the Towns of Riga and Ogden on the
         Existing Watershed Planning Team 47
c. Repair or Replacement of Failing Onsite Sewage Disposal (Septic)
   Systems 48
d. Storm Sewer Construction 48
e. Extension of Sanitary Sewer Lines 49
f. Elimination of Commercial Floor Drains Discharging to Stormwater Systems; Ensuring Proper Use of Oil/Water Separators 50
g. Hubbard Park Tributary Improvement 51
h. Improved Maintenance of Roadside Ditches 51
i. Prepare a Watershed Plan for the Entire Black Creek Watershed 52

VI. Recommendations 53
A. Process for Making Recommendations 53
B. Recommendations 53

VII. Implementation Strategy 55

VIII. Public Involvement 67
A. Public Involvement Need and Purpose 67
   1. Need for Public Involvement 67
   2. Public Involvement Purpose 67
B. Public Involvement Strategies 67
   1. Public Meeting 67
   2. Response Summary 67

IX. Appendices
A. Excerpts from Monroe County Pure Waters Sewer Use Law A-1
B. Operation and Maintenance Inspection Report for Stormwater Management Facilities B-1
C. Public Information Meeting Response Summary C-1
D. State Environmental Quality Review D-1

Maps

1. Watershed Location v
2. Watershed Boundary vii
3. New York State Designated Wetlands 15
4. Federal Wetlands 16
5. Topography: North 17
6. Topography: South 18
7. Hydric and Potentially Hydric Soils 19
8. Existing Land Use 20
9. Waste Sites 21
10. Sanitary Sewers 22
